Sharlyn Barreto

sharlynbarreto1@gmail.com - linkedin.com/in/sharlyn-barreto - github.com/SharlynBarreto - New York, NY

EDUCATION

CUNY Queens College **May 2026**
Bachelor of Arts in Computer Science - Dean's List **Queens, NY**
Relevant Coursework - Data Structures & Algorithms, Web Technologies, Databases, Software Engineering, OOP (Java and C++)

TECHNICAL SKILLS

AI & Agentic Systems: Agentic Workflows, Agent Harness Integration, Tool/Function Calling, Prompt Engineering, LLM APIs (Anthropic Claude, Google Gemini, OpenAI Codex), Claude Agent SDK, Life Cycle Hooks, Azure AI Foundry, Computer Vision (OpenCV, ONNX), Model Evaluation
Languages & Frameworks: TypeScript, JavaScript (Node.js, Express.js, Hono, Bun), Python, Java, SQL, HTML/CSS, React 18 & 19, Cloudflare Workers, WebSockets, Vite, Unit Testing, Next.js
Cloud & Infrastructure: Microsoft Azure (Cosmos DB, Container Apps, Key Vault, Managed Identity/RBAC), Bicep IAC, WorkOS (OAuth, SSO), Secret Management, CI/CD Pipelines, Code Review, Git/GitHub, MongoDB, Google Cloud Platform, PostgreSQL, API Management

PROFESSIONAL EXPERIENCE

Augenta AI **New York, NY**
Forward Deployed Engineer **March 2026 - July 2026**
- Owned **authentication** and **authorization** for Augenta platform; **WorkOS OAuth/SSO**, and organization RBAC gating business-account connectors.
- Administered Azure APIM as REST API gateway and **owned Bicep Infrastructure-as-Code (IAC)** deploying **eight modules** to dev, staging, and production.
- Built React 18 and TypeScript admin surfaces for API-key, workspace and member administration; enforced storage correctness with **contract testing** across in-memory and **Azure CosmosDB** adapters.

Morgan Stanley **New York, NY**
Software Engineer Intern **January 2025**
- Contributed to schema design for resource types in the Ansible Automation Platform (AAP), collaborating with senior engineers to standardize configuration across the platform.
- Implemented granular validation logic for AAP change management, **improving data accuracy** and **reducing manual validation time by ~5%**.

PROJECTS

Closet Labs | Visual Fashion Search Engine | TypeScript, CLIP, Next.js, React 19
Full Stack Developer **June 2026**
- Built visual product search on a **90MB** quantized CLIP model with zero-shot garment labeling & top-K re-ranking against live multi-store catalogs.
- Designed a ProductSource adapter layer fanning **5 retail APIs** through one interface with Zod-validated parsing and Shopify-to-Tavily fallback, backing 6 API routes and 7 UI surfaces that run with zero API keys.
- Implemented a color engine mapping hex values to canonical names and generating harmony palettes that drive catalog filtering, with pure builders and parsers unit-tested under Vitest.

Polly AI | Multimodal Debate Feedback | React 19, Vite, WebSockets, OpenCV, ONNX, MediaPipe, Google Gemini
Frontend Developer & Technical Product Manager **October 2025 - Present**
- Built the React 19 and Vite frontend, streaming camera frames and WebM/Opus audio over a single WebSocket context and rendering live face and hand-tracking overlays driven by server-side analysis.
- Co-engineered the emotion-detection evaluation harness, benchmarking on **175 labeled faces** and adding a blind relabeling pass after crowd-sourced labels proved only **59% reliable**; balanced accuracy rose from **37% to 51%** against a **14% seven-class baseline**.
- Orchestrated a **3-person team** as PM, designed product concept defining the feature scope and technical requirements the build ran against.

UP Investments | Real Estate Insight Dashboard | React.js, JavaScript, TailwindCSS, RapidAPI, Cloudflare Workers
Frontend Developer **September 2024**
- Built a React dashboard that ingests live housing and market data; models it into ROI projections, making property investment math legible to buyers without a financial background.
- Integrated RapidAPI housing feeds as the data layer behind the financial model, normalizing responses into a single property schema.

LEADERSHIP

ColorStack - Queens College Chapter **November 2025 - May 2026**
Founding Treasurer
- Managed a **$1,300 budget** and led fundraising generating **$1,000+** in additional capital, ensuring financial sustainability for 50+ members.

ALPFA (Association for Latino Professionals of America) - Queens College Chapter **September 2024 - May 2025**
Director of Marketing/Event Coordinator
- Led a **15-person** team to grow membership by **25%**; analyzed cross-platform metrics to iterate on campaigns, improving digital engagement by **50%.**
- Organized events catered to members including interactive networking events, boosting event attendance by **40%.**
